

Pillow Location Schematic

Sketch in & measure twice.

Top View

Soil Surface Preparation

Level (no more than 5" slope per 10 feet)

- Redistribute soil to achieve maximum level of slope
- Is a wall needed to support surrounding soil?

Locate

1. Home or deck supports and walls
2. Heating & AC units
3. Overhead pipes AC/Gas/Water etc.
4. Pillow placement with sufficient access to all sides of pillow
5. Filter access
6. Filter overflow
7. Pillow overflow
8. Electricity
9. Pillow fitting locations

PILLOW FITTING LOCATION (SEE PAGE 2)

Fill Port - 3" female thread

Choose 1

- Top of Pillow
A _____
B _____

- Side of Pillow
C _____
D _____

Pump Port - 2" female thread (must be located on the side)

- E _____
F _____

Overflow Port - always located on top center

PILLOW MEASUREMENTS (FEET)

HEIGHT: _____
WIDTH: _____
LENGTH: _____

* Measure Height To Any Obstruction
